

Monte Rosa Therapeutics to Present at Piper Sandler 32nd Annual Virtual Healthcare Conference

November 20, 2020

BOSTON--(BUSINESS WIRE)--Monte Rosa Therapeutics, a biotechnology company focused on developing precision medicines to degrade disease-causing proteins, today announced its participation in the 32nd Annual Piper Sandler Virtual Healthcare Conference taking place November 30-December 3, 2020. Markus Warmuth, M.D., CEO of Monte Rosa, will be presenting a corporate overview on November 30, 2020.

About Monte Rosa

Monte Rosa Therapeutics is a biotechnology company developing molecular glues to degrade disease-causing proteins. The company has created a platform to rationally design small molecules that reprogram ubiquitin ligases to eliminate disease drivers previously deemed undruggable. The company's drug discovery platform combines diverse and proprietary chemical libraries of small molecule protein degraders with in-house proteomics, structural biology, machine learning-based target selection and computational chemistry capabilities to predict and obtain protein degradation profiles. Monte Rosa was launched from founding investor Versant Ventures' Ridgeline Discovery Engine and is headquartered in Boston, Mass., with research operations in both Boston and Basel, Switzerland.
