

Monte Rosa Therapeutics to Participate in Piper Sandler 33rd Annual Virtual Healthcare Conference

November 22, 2021

BOSTON, Nov. 22, 2021 (GLOBE NEWSWIRE) -- Monte Rosa Therapeutics, Inc. (NASDAQ: GLUE), a biotechnology company developing novel molecular glue degrader medicines, today announced members of its management team will be participating in the Piper Sandler 33rd Annual Virtual Healthcare Conference from Nov. 30-Dec. 2, 2021. The company's pre-recorded fireside chat is available for registered attendees via the Piper Sandler conference site from Nov. 22-Dec. 2.

An archived webcast of the fireside chat can be accessed via the "Events & Presentations" section of the company's investor site at <https://ir.monterosatx.com/>.

About Monte Rosa

Monte Rosa Therapeutics is a biotechnology company developing a portfolio of novel molecular glue degrader medicines. These medicines are designed to employ the body's natural mechanisms to selectively eliminate therapeutically relevant proteins. The company has developed a proprietary protein degradation platform, called QuEEN™ (Quantitative and Engineered Elimination of Neosubstrates), that enables it to rapidly identify protein targets and molecular glue degrader, or MGD, product candidates that are designed to eliminate therapeutically relevant proteins in a highly selective manner. The company's drug discovery platform combines diverse and proprietary chemical libraries of small molecule protein degraders with in-house proteomics, structural biology, AI/machine learning-based target selection and computational chemistry capabilities to predict and obtain protein degradation profiles.
